SUBJECT : Possible Contacts in Finland

XAAZ-28133

CFRFG-1415

TO : Chief, PWIGHT

1. Subject of Personnel Memorandum 272 informed [] that he has certain contacts in Finland, apparently left over from his wartime work for the Abwehr in that area. 272 suggested that these contacts be utilized in connection with the JBRADOLE net for the LCPROWL-Apparat.

2. [] told 272 upon my instructions that this proposal was entirely impracticable because on the one side we don't want to expand any contacts beyond outside Germany and on the other hand Finland was in as much of a precarious situation as Western Germany and therefore not fit as an outside contact point in the event of JBUMPIRE.

3. I wonder however whether you wouldn't want to utilize these Finnish contacts for some other purpose, presumably to turn them over to the appropriate ZACACTUS station. 272 told [] also that the subject of Personnel Memorandum 338 might be willing to go to Finland to live there. [] suggested that the Olympic Games in Finland next year might permit 338 to establish suitable cover there.

4. The "turnover" of these contacts would of course present a difficult problem. I suppose that 272 would have to take a trip there and renew his personal contacts in order to turn them over to somebody else. This however can be arranged from our end. In the meantime, I have instructed [] to obtain particulars on the persons involved (at the moment we have only a few names without first names and without addresses).

5. Please advise whether and in what direction we are to pursue this matter further. I am attaching 2 extra copies in case you wish to forward the present dispatch to ZRMETAL.

Subject: Proposed Finland Radio and Incidental Intelligence Net

1. In the talks that I have had with Green, he has informed me that his contacts that were quite active in the war years are still available to use by a respectable party. His proposal was for us here in Germany to make the contact through an already available flight-German national and then to set up a base for a station in Finland. He knows for a fact that there is a net set up along the old German line just lying dormant. In fact he called it a "sleeping" net. As we realize this type of a net is at times extremely advantageous, and for our purposes such a net might be well put to a fine use against the Soviets.

Of course the area of Finland is out of our hands as such must fall to someone in that area, however a basic danger exists here and this danger was pointed out to me by Green. He said that these people are definitely anti-Bolshevik but nevertheless they are very cautious and will perhaps resist. Critical attention by any third party if they are not informed by him that the third party is going to do some good with their efforts. Now he told us it may be a trap that he has an angle in this theory and that is that he wants to be "left in" on the Finland net. His period of service there adds some to this supposition.

Now we have at present the name of four men in such a position to be used in the Finnish operations. One of them is the subject in the Subject of Personal name 338 and his name to us is Jaeger. At the same time I have on file here three other names of men that could be used in an operation in that field. They are (true names)

1. Boleslaw b. E. S. A. E. E. E. (Belinski) (Kommunistische 130 A 17)
2. Polakowski (former name) (Pawel) (Belinski)
3. Imma (North Finland)

For further information on these men I have asked Green to submit first names and exact towns. He has agreed to do this and these will be available later.

Green personally thinks that if there is not at present a set up organization in the Finnish area then the men that he is able to contact would be a good base on which to start one. He is sure about all of them and their attitude towards the Soviets.

Another bit of information that Green gave me is that Subject of Para. Memo 338 might be willing to go to Finland to live; he speaks at least 4 languages well and the only thing would be his cover. I personally believe that this might be worked out quite well because of his occupation and the fact that this year is an Olympic year in Helsinki and his cover would be quite in keeping with the times.

I have asked Herr Green to submit all further info on these men that he has so far given me and to search back in his memory for others that might be willing to do work of the nature that we would be interested in for future use.

Mein lieber *Reino* ~~Reino~~ *Reino*

Hier ein persönlicher Gruss, den ein amerikanischer Freund überbringt. Wir haben uns anlässlich gemeinsamer Hochgebirgstouren in den bayrischen Bergen kennengelernt. Nun kommt er zum ersten Male nach Finnland. Ich bin sicher, dass er Euer Land als erkorenen Finnlandfreund wieder verlassen wird. Wie gern wäre ich auch bei Euch oben: Du weisst es, dass die Parole SUOMEN der lockende Ruf ist, den ich als Wunsch stärker als jeden anderen habe.

Es freut mich sehr, dass Dir die Zeitung gefällt, die ich Dir zustellen lasse. Sie vermittelt ein gutes Bild von den Ereignissen bei uns in Deutschland, von der grossen Entwicklung, in der wir als Volk stehen. Zu gegebener Zeit möchte ich Dir mitteilen, welche Literatur aus Finnland mir wertvoll wäre, mit der Bitte, sie mir dann zu beschaffen.

Nun ist es etwas länger als ein Jahr her, dass Du mit Dag hier gewesen bist. Leider war es nur ein sehr kleiner Ausschnitt, den Du sehen konntest. Einmal sollte es möglich sein können, dass Du längere Zeit in Deutschland bleiben kannst, um unser Land von Nord bis Süd genauer studieren zu können.

Für die Olympiade wünsche ich Euch eine Menge Goldmedaillen. Interessant wird das erste grosse internationale Auftreten der sowjetischen Sportler sein. Die deutsche Beteiligung dürfte wenig ins Gewicht fallen, da Krieg und Nachkriegszeit sich auf einen leistungsfähigen Nachwuchs heftend genug ausgewirkt haben.

Dag und Dir wünsche ich frohe Tage. Vergesst bitte nicht, mir hin und wieder ein Lebenszeichen zu geben: jeder Brief von Euch verbindet mich erneut mit der Zeit, die ich in Finnland war und die mich mit Glück erfüllte.

Höflichste Grüsse und Wünsche
von Euren

SECURITY INFORMATION

11 August 1952

Finland:

REMOOSEY, currently Chief Agent of the Paramilitary Radio net in Western Germany, over a year ago gave me certain names and addresses which he felt could be used for operations in Finland. At that time I was told to discourage him as we were in German operations and not Finnish. A dispatch was sent to the Chief of Mission here advising him that these contacts might be used by another station. That is the last anyone heard of the situation. Agent continued asking me if these assets were needed and as per instructions the undersigned discouraged him saying that Finland was evidently well covered as no one seemed interested.

Some months have elapsed since Agent and undersigned have mentioned this area in detail, but agent still maintains some sort of contact with Finland, I imagine on a personal basis.

At present the names and addresses on at least 3 - 10 contacts are possible. In our files here there are actually two men on whom full information can be obtained. One (1) of these two men is operationally cleared agent who has in no way been utilized as yet. This man lives in West Germany and speaks Finnish, Swedish, English and German. He has a sister in Helsinki and numerous relatives scattered in Finland. This man's father has emigrated to Canada. His name is (Identity 1). The second man, also in direct contact with REMOOSEY, lives at present in Helsinki and is active in City Administration. (Identity 2)

A third possible contact is (Identity 3) who is a Swedish national who fought with the Finns against the Russians in the Finno-Russo war in '40-41. This man is reputed to have high level contacts into the present Finnish General Staff.

As far as Finland is concerned none of these men has been contacted. Identity 1 has been recruited as a W/T operator but has had no schooling on contact, except with REMOOSEY, and could easily be used as cut-out, courier, spotter or even recruiter in the establishment of any type Net.

The possibility for contacts increases when you find that REMOOSEY's wife is a Finn and has her complete family in that country although she lives in Sweden waiting for Swedish citizenship. Here also is a possible courier, cutout or contact person.

With imagination and a full realization of assets on hand, the undersigned feels that the establishment of an operation, or operations in Finland, ranging from political to Paramilitary, is possible.

3. Wie bereits mehrfach betont wurde, kann das im Finnlandexposé umrissene Programm im sukzessiven Vorgehen realisiert werden. Ich habe mich in den letzten Wochen nochmals vergewissert, dass meine früheren und eine Reihe neugewonnener Kontaktpersonen sich mir vorbehaltlos für eine Tätigkeit im aufgezeichneten Sinne zur Verfügung stellen werden.

Ich darf vorschlagen, die seinerzeit vorgelegte Planung zu realisieren.

Relay Sweden-Norway

1. By 3 300 preparations have already been made, to address suitable personnel circles for a confidential co-work also in Sweden and Norway. However, in respect of these efforts it is supposed to be operated via another connection with the same targets; to create a relay system which commands static and mobile transmitter stations and which, with a selected small group of organisation guarantees emergency answer and receiving possibilities.
2. As contact man and later full-time co-worker I have intended here Herr Kretz from Göteborg, Filipstadsgatan 8. Kretz formerly was active Swedish police Captain, however had to quit his service, because he got into sharp differences with social democratic circles. Extreme right orientation was blamed on him, especially since he expressed his critique openheartedly in personal talks, for instance attacking the ideologic-marxistic spiritual base of Social-Democracy. But in spite of this Herr Kretz received, due to the influence of several friends in the Swedish army, observer functions abroad; thus he was in Madrid during the red Civil War, in Germany as observer of the maneuvers of the pre-war army, in Poland at the commencement of WW II, in order to study the "airraid protection-conditions". As Co JC in a Swedish volunteer Battalion he took part in the fights in Finland (July to fall 1941) taking place before the Russian strongpoint Hanko/Hangö. After that he remained in Finland, as Swedish officer in Finnish uniform, attached to the air-protection-staff of General Malmberg until the end of 1944. Herr Kretz studies at the university of Göteborg, in order to confer a doctors degree on a military-psychological work. He furthermore has very good personal contacts to especially Finnish General Staff officers of the present Finnish Army.)
3. It is intended to invite Herr Kretz to a discussion in Frankfurt in a foreseeable time, since I would like to discuss all possibilities in the sense of the thought mission-outlines with him. Herr Kretz already was my personal guest in Hamburg in November/December 1950. The at that time renewed personal contact gives me the guarantee, that a discussion with him will be successful.
